DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The prior art does not show or teach a personal wear rescue apparatus having a throw bag with closure means for closing an open top end of the bag and a loop fixedly secured within an interior cavity of the bag; a line releasably secured to the loop at its inner terminal end and mounting a releasable connector member at its outer, free terminal end, all but a predetermined outer terminal end portion of the line being releasably contained within the interior bag cavity when the bag open top end is in closed condition; and a quick disconnect securing means on the throw bag for securing the bag for quick disconnect attachment to the wearer, allowing a quick release of the bag from the wearer by a grasping and pulling off action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
